EDIT OVERALL UNITS

Enter the OVERALL UNITS.

Select “None” or “OR” or “TO.”

Example 1:
Fixed unit course with one group activity
ETST 104
Activities: Lecture 3, Reading (Extra) 3

Go to ACTIVITIES HOURS AND UNITS.

Enter the Activities: Lecture 3, Reading (Extra) 3. Enter Unit Bearing activity first, then secondary scheduled activity, then non-scheduled activities.

Enter Unit Bearing Activity (or group activity) first, then secondary Scheduled Activity (or group activity such as Discussion, that will be linked in SSASECT), then enter in non-scheduled activities (or individual activities, these individual activities will not be loaded into SCACRSE if they are a secondary activity).

Courses listing only individual activities such as 198I, 198G, 298I or 298G courses require the activity that will be offered in a term to be listed first within the CRS list.

Note: If you make a mistake, select the trashcan icon to remove your entry and start over.

Select “None” in the units indicator if you have one scheduled (group) activity.
