Students can establish the proxy account, choose the information they have access to, and grant them permission to view information from Student Business Services, Financial Aid and/or Housing and to discuss that information freely with UCR employees.

Please Note: R’Web Authorization & Privacy settings allow you to authorize users to DISCUSS account information with Student Business Services and other campus offices, but in order to authorize users to VIEW billing information and online payments, you must authorize them separately in the Student Account tab of R’Web where it says Student Account Online.
